Perspectives on Mobile Technologies for Learning

This special issue calls for contributions that engage in a conversation about mobile learning, offering a platform for diverse positions.

Topics may include, but are not limited to:

- Mobile technologies, digital literacy and civic reasoning
- Mobile learning in different contexts (Preschool, K-12, HigherEd)
- Tranlanguaging with mobile technologies
- International perspectives on mobile technologies: Public Health recommendations, guidelines and attitudes towards mobile devices in different countries
- Mobile learning and social connections
- Mobile learning content: apps, podcasts, e-books
