26–30 August

SEC, Glasgow, UK

**“Inclusive Learning Environments to Transform
the Future”**

Provisional Programme

In Person

Glasgow Offers...

Access: Just 15 minutes' drive from Glasgow Airport

Accommodation: over 7,000 hotel bedrooms within a 2-mile radius of the SEC

Affordable: ranked as one of Europe's most cost-effective cities

Culture: houses one of the finest civic art collections in Europe

Compact: the city is compact and walkable

Friendship: in 2014, Glasgow was voted 'World's Friendliest City' in a Rough Guide poll

Scenery: only 30 minutes from Loch Lomond National Park and some of Scotland's most spectacular scenery

Vibrancy: Scotland's largest city and economic heart, at the forefront of low-carbon developments as it seeks to be one of the most sustainable cities in Europe.

Why you should attend ...

1. Network with peers and build future collaborations
2. Expand your knowledge, learn of tomorrow's developments and find answers to your questions
3. Present your work to others and receive feedback
4. Learn beyond your specialist field of interest
5. Have fun – take a break from your academic responsibilities and discover a vibrant city

Conference Themes...

The main theme of AMEE 2023 is 'Inclusive Learning Environments to Transform the Future' but other key areas in health professions education will also be included. For 2023 we have replaced the pre-defined conference tracks with several broader educational themes.

Assessment
Designing and Planning Learning
Education and Management
Equality, Diversity & Inclusivity
Faculty Development
Interprofessional and Team Learning
Patient Safety

Scholarship of Education
Simulation
Supporting Learners
Sustainability
Teaching and Facilitating learning
Technology Enhanced Learning

7th International Conference on Faculty Development in the Health Professions

26–27 August 2023, SEC, Glasgow, UK

The 7th International Conference on Faculty Development in the Health Professions will take place in conjunction with AMEE 2023.

The theme of the conference is **‘Shape of Faculty Development for Tomorrow – Implications for Theory, Practice & Scholarship’** and the goal of the conference will be bringing together a global community of faculty developers and health profession educators. This conference is specifically focused on the field of faculty development for academic health science centres world-wide and is the foremost calendar event on this important topic.

What’s on offer at ICFDHP 2023?

- 4 innovative, collaborative, and inspiring plenary sessions on:
 - Scholarship of Teaching and Learning
 - Co-creation of Faculty Development with students
 - Virtual of in-person Faculty Development
 - ASPIRED examples of Faculty Development
- Short Communications, ePosters, Workshops and Point of Views
- A networking reception and many other opportunities to connect with colleagues with a passion for faculty development!

Conference Location

In Person Only. The Conference will take place at SEC, Glasgow, UK.

Registration

Delegates can choose to register for the 7th ICFDHP Conference *only* or for 7th ICFDHP and AMEE 2023.

How technology can transform learning environments for inclusive education

A TEL themed Pre-Conference Symposium

Technology has the power to transform learning environments for inclusive education, ensuring that all learners can achieve their full potential.

There is increasing interest in two areas:

- a) Technology can enable anytime, anywhere access to learning environments. Examples include the use of online networks and communities, use of social media, MOOCs, open access resources and FOAMed.
- b) Technology can enable learners to maximise their learning by creating inclusive online learning environments that respond to their diversity in age, gender, ethnicity, religion, disability, sexual orientation, education, and national origin. Examples include the use of assistive technologies, presentation of information in alternative and multiple formats to enhance engagement.

Programme: Sunday 27th August 2023

0930–1050 Technology for inclusive access

- 0930 Welcome and introduction – Technology for inclusive access
John Sandars, Co-chair AMEE TEL Committee and Professor of Medical Education and Director of Medical Education Innovation and Scholarship, Edge Hill University Medical School, UK
- 0940 Using open access MOOCs for training a global community of medical educators
Rakesh Patel, Professor of Medical Education, Queen Mary University of London, UK
- 0950 Shared Open Education Resources (OER) Elevating Medical Education in Low Resource Countries
Tao Le, Clinical Associate Professor of Medicine, University of Louisville, USA
- 1000 Student generated content for global health advocacy
Kalyani Premkumar, Professor of Community Health and Epidemiology, University of Saskatchewan, Canada
- 1010 The FOAMED (Free Open Access Medical Education) approach
Teresa Chan, ALiEM Associate Editor and Associate Professor, McMaster University, Canada

1020 Social Media for Social Inclusion: Enablers and Barriers for Creating Inclusive Learning Environments

Sandra Abegglen, Researcher, University of Calgary, Canada

1040 Lessons for university reform from implementing a fully online global public health capacity building programme – Peoples-uni

Richard Heller, Emeritus Professor, Universities of Manchester, UK, and Newcastle, Australia

1050 Coffee break

1120 Short Communications

1220 Plenary and panel discussion

1245 Lunch

1330-1430 Technology for inclusive education

1330 Introduction – Technology for inclusive education

Daniel Salcedo, Co-chair AMEE TEL Committee and Director of Simulation and Technology, Case Western Reserve University School of Medicine, USA

1340 Eduthons and hackathons for engaging global interprofessional education

Natalie Lafferty, Head of Centre for Technology and Innovation in Learning, University of Dundee, UK

1350 Open access student generated scalable education

Daniel Del Castillo Rix, Chairman of Student Advisory Council, ScholarRx, US

1400 Human centred design – How can we use technology to increase participation in using HCD to design professional development programs

Sol Roberts-Lieb, Senior Director of Faculty Development, Carle Illinois College of Medicine, USA

1410 Using social media for continuing professional development

Raquel Correia, Program Director, Chair of Innovation & Value in Health, Université Paris Cité, France

1420 The TEC VARIETY approach to increase motivation of online learners
Weichao (Vera) Chen, Assistant Director of Technology-Enhanced Surgical Education and Distance Education, American College of Surgeons, USA and Curtis J. Bonk, Professor of Instructional Systems Technology at Indiana University and adjunct IU Luddy School of Informatics, Computing, and Engineering, Bloomington, IN, USA

ESME Masterclass Sessions

Essential Skills in Clinical Teaching (ESMECT): A Masterclass

Date: Sunday 27 August

Time: 0930–1230 BST

Course lead: Professor Subha Ramani, Brigham and Women's Hospital, Boston, USA

Background: Teaching in the clinical environment is a demanding, complex, and often frustrating task, a task many health professions educators assume without adequate preparation or orientation. The various settings (ward, ambulatory, urban or community) have their own distinct challenges. In these settings, essential patient care skills such as history taking, physical examination, patient communication and professionalism are inculcated, bench knowledge applied to the bedside, motivation and self-directed learning take on a new meaning. Clinical teachers have a dual role in medicine; to provide patient care and to teach. Although many participants will have experience in providing patient care, fewer have experience in using a systematic framework to teach and assess their learners, reflect and analyse teaching behaviours and consciously role-model excellent clinical skills.

Who should participate in this course: This course will focus on core topics in clinical teaching and is intended for clinicians who teach pre-registration students (medical / nursing etc) and post-registration trainees (physician, nursing etc) in ward, outpatient as well as simulation and conference settings. In addition, educators who organise staff development for clinical teachers will benefit from participation.

Mode of delivery: The course will be delivered as a half-day masterclass for face-to-face conference delegates. The course language is English, but the pace will be suitable for participants whose first language is not English.

Essential Skills in Medical Education Leadership and Management (ESMELead): A Masterclass

Date: Sunday 27 August

Time: 0930–1230 BST

Course lead: Professor Judy McKimm

Background: The ESMELead Masterclass provides an introduction to key aspects of leadership and management for healthcare educators who wish to develop a deeper understanding of leadership and management theory and gain an evidence base to help them become more effective leaders. The half-day workshop is theory informed, practice driven, context specific, highly interactive, supportive, and fun.

Who should participate in this course: This course provides an introduction to key aspects of leadership and management for health professions' educators who wish to develop a deeper understanding of leadership and management theory and gain an evidence base to help them become more effective leaders, managers and followers.

Mode of delivery: The course will be delivered as a half-day masterclass for both face-to-face and online conference delegates. The course language is English, but the pace will be suitable for participants whose first language is not English

Essential Skills for Continuing Professional Development (ESCPD): A Masterclass

Date: Sunday 27 August

Time: 1330-1630 BST

Course lead: Jane Tipping

Background: This half day, internationally informed Masterclass is designed to support CPD practitioners to upskill themselves in the basic principles of CPD but also to provide a space where they could explore areas where they may not have a lot of knowledge. Participants will gain a global appreciation of current Best Practices in CPD, the evidence and theory informing effective CPD, and practical approaches to current issues within the field.

Who should participate in this course: This program will be of interest to those who are currently involved in the planning, organization and/or implementation of health professions education at the continuing professional development level. The program spans topics of value to those new to the field as well as those at an intermediary point in their CPD careers.

Mode of delivery: The course will be delivered as a half-day masterclass for both face-to-face and online conference delegates. The course language is English, but the pace will be suitable for participants whose first language is not English.

Essential Skills in Medical Education Wellness: A Masterclass

Date: Sunday 27 August

Time: 1330–1630 BST

Course lead: Professor Judy McKimm

Background: Educators need to maintain their own wellbeing, and for those who might lead organizational change, to ensure that their academic and clinical communities can thrive. By sharing their experiences and working together to find solutions with feedback from course faculty, participants can collectively enable the much needed and innovative individual and systemic change that is essential to make wellbeing a core dimension across the entire health professions' education and healthcare continuum.

Who should participate in this course:

The course will be of interest to anyone interested in supporting learner and faculty wellbeing in health professions' education and healthcare.

Mode of delivery: The course will be delivered as a half-day masterclass for both face-to-face and online conference delegates. The course language is English, but the pace will be suitable for participants whose first language is not English.

Understanding Inclusive Leadership for HPE

Sophie Soklaridis, Canada

Dr. Sophie Soklaridis is a Senior Scientist at the Centre for Addiction and Mental Health (CAMH). She is an Associate Professor at the Department of Psychiatry and Department of Family & Community Medicine at the Temerty Faculty of Medicine, University of Toronto, as well as a Scientist at Wilson Centre for Research in Education. She is the Canadian lead and a core faculty member for the Master of Health Sciences Education in Ethiopia through the Toronto Addis Ababa Academic Collaboration (TAAAC). Her research takes a critical sociological approach on the issues of power, identity, and relationships. Her scholarly foci include patient/clients as partners in research and mental health education and the influence of power and privilege on academic medicine. She is a widely published and well-funded scientist who has received multiple awards for her research.

Enabling Assessment for Inclusion in the Health Professions

Rojla Ajjawi, Australia

Rola Ajjawi is Professor of Educational Research at the Centre for Research in Assessment and Digital Learning (CRADLE) at Deakin University, Australia. Her international program of research has sought to reveal the taken for granted assumptions about and hidden complexities of educational practice. Her current research spans equity, agency, belonging, and workplace learning. Rola was awarded a Karolinska Institutet Fellowship for her Research in Medical Education in 2021. She is Deputy Editor of the journal Medical Education, DEI lead for the journal, and chair of the AMEE doctoral award group. Her latest edited collection is Assessment for Inclusion in Higher Education: Promoting Equity and Social Justice (Routledge, 2023 – Open Access).
