

Special invitation to join us in exploring blended learning with emerging technologist Curt Bonk.

Coming to PSU on MARCH 9th
Blended Learning A to Z: Myths, Models,
and Moments of Magic
with CURT BONK

March 9th, 2018, 10:00 a.m. - 11:30 a.m.

OAI invites you to a special event as we host emerging technology [Curt Bonk](#) for a session on blended learning. Professor Bonk will lay out several different models and definitions of blended learning. Using his own “Handbook of Blended Learning: Global Perspectives, Local Designs” as a backdrop, the session will detail many of the advantages as well as the various disadvantages of blended learning as related to the different models. Perhaps, most importantly, Dr. Bonk will offer two simple yet powerful frameworks that can be used to understand hundreds of Web-based pedagogical ideas that can motivate students to high success in blended learning environments. Bonk will provide these best practices in blended learning based on two decades of his research. Such ideas can creatively engage students into deeper and better learning.

Note: Dr. Bonk will give away signed copies of his book, [“Adding some TEC-VARIETY: 100+ Activities for Motivating and Retaining Learners Online”](#) to those who ask questions before, during, or after his talk.

RSVP

Curt Bonk Luncheon Invitation
“Adding Some TEC-VARIETY” in the Blended Classroom

March 9th, 12:00 - 1:30 PM

Following the Curt Bonk's morning session, OAI will host a luncheon for those interested in speaking with our presenter further. At lunch, Bonk will give away more copies of his book to those who ask questions. If time permits, Professor Bonk will detail a dozen or two more examples on how to use this framework to make your blended and fully online learning activities more engaging, empowering, and exciting.
