

Join us on January 27, 2005 for a bunch of Bonk...Dr. Curt Bonk that is!

After gazing into his crystal ball to see what tends to work in Oklahoma, Dr. Bonk will present dozens of engaging (and perhaps even a few amazing) strategies for technology-enhanced, fully online, blended, and videoconferencing courses, many of which you can begin to use the same day.

Low risk, low time, low cost!

9:30 a.m. - 11:00 a.m. Active Learning with Technology the 3M Way:
Myths, Magic and Mucho Motivation

Myths and debates abound about the benefits of technology integration in higher education; especially with the explosion of online course enrollments. Based on extensive research, Curt Bonk will dispel the myths and reveal a few technology magic tricks to help instructors and course designers focus on effective teaching and learning with technology.

11:15 a.m. - 12:00 p.m. Lunch and Rountable Discussion

12:15 p.m. - 1:45 p.m.

Best of the Best of Online Pedagogical Practices

This fun packed session will look at how to make online learning a pedagogically rich, collaborative, and engaging experience. It will include an interactive and engaging overview of current best practices in online learning pedagogy (from Oliver, Berge, Collis, Harasim, Salmon, etc.), including the use of the famous Bonk Bingo Board. Dozens of guidelines and frameworks related to online teaching and learning will be offered. In effect, this session will help rethink the role of the instructor, learner, and institution in online environments.

About the Speaker

Curtis Bonk is a Professor of Educational Psychology as well as Instructional Systems Technology at Indiana University (IU). He is a core member of the Center for Research on Learning and Technology at IU and a Senior Research Fellow with the Advanced Distributed Learning Lab within the Department of Defense.
